Introduction

The City of Shawnee has continued to develop and refine its Work Plan document. The 2016/2017 Work Plan ties together the City's work with Priority Based Budgeting (PBB) and projects that move the City forward that are outside "normal workloads." The goals tie to the City's (PBB) "Results." These Results get at the heart of what the Shawnee Governing Body see as the vital functions the City should perform. Results were then defined by staff and affirmed by the Governing Body. Definitions of the Results are included in the Result columns along the sides of the City-wide portion of the Work Plan.

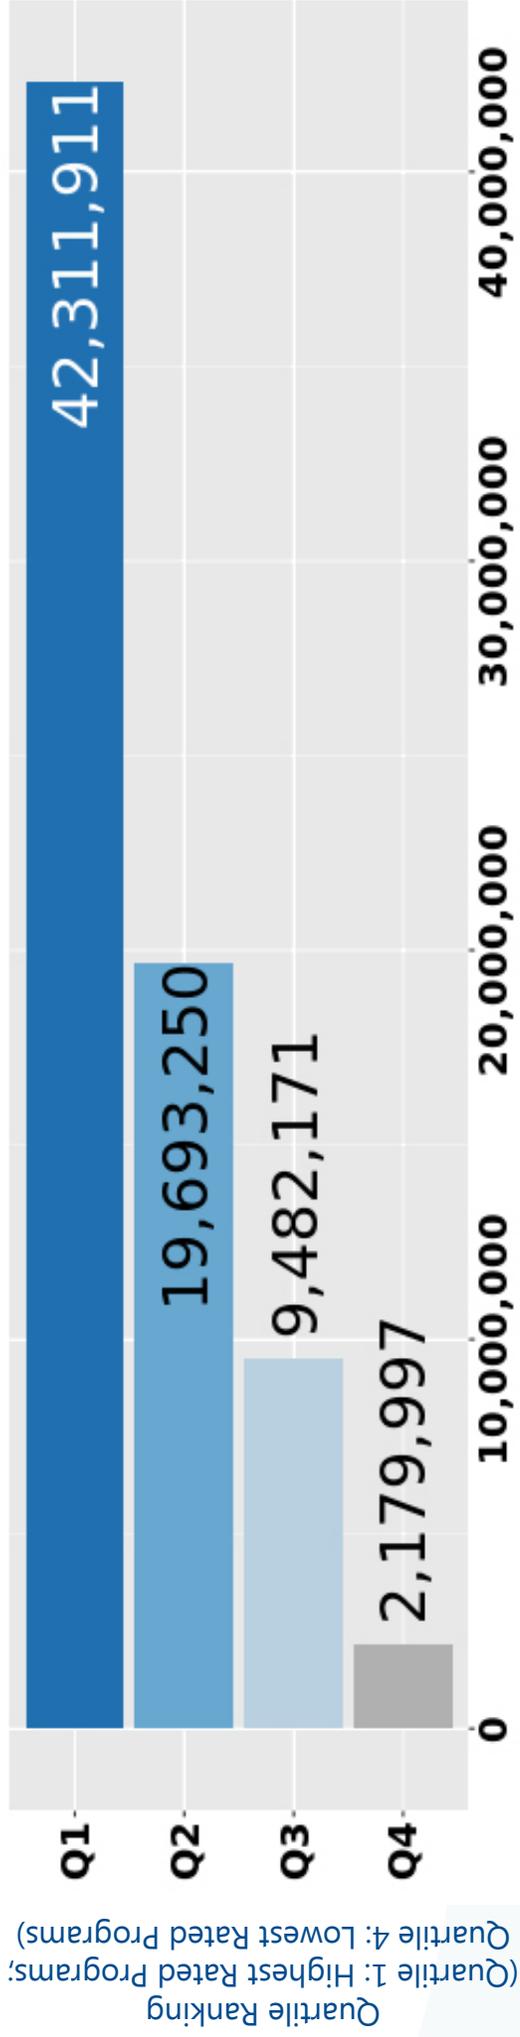

The seven Results for the City include:

- An Attractive, Healthy and Well-Maintained Community
- Economic Growth and Vitality
- Effective Mobility and Reliable Infrastructure
- An Environmentally Sustainable and Well-Planned Community
- Quality Cultural and Recreational Opportunities
- Safe Community
- Good Governance

In addition to the Projects outlined in the Work Plan, each department has associated Programs. These Programs and their descriptions can be found on the City's website. Programs are the work that is done by the City every day, and all Programs have been evaluated to determine how they support the City's Results. This program evaluation is part of the Priority Based Budgeting process that allocates costs to programs and then places Programs into four quartiles based on how well the Programs help achieve the Results of the community. This process provides different ways of looking at budgeting and program costs to make strategic decisions about future and existing Programs. The following page shows how 2015 budget dollars were spent on programs across the four quartiles.

The Work Plan contains City-wide and Department special activities that will be undertaken in the next year, in order to better achieve the City's seven Results. These Projects include increased efficiencies, analysis of work processes, increased collaboration, public education and establishing foundations for future vision. These Projects are undertaken in addition to the regular Programs provided by the City. This final work plan was created by the City's Management Team and presented as part of the Budget discussions to the Shawnee Governing Body.

Priority Based Budgeting: Spending Array Perspectives

Mission

Our purpose is to provide a high quality of life for all citizens.

“Shawnee is many things, but above all, it is our home.”

Organizational Values

These are the values which guide how we make decisions in our day to day work and for long range planning for the community.

Citizen Engagement

We value the democratic process and the participation of the community in making decisions.

We value the open exchange of information and ideas in the decision making process.

Fiscal Responsibility

We work to achieve our mission and meet priorities set by the Governing Body while being responsible with public tax dollars and creating a culture of transparency.

We value innovation, finding better and more efficient ways to deliver quality services to our constituents.

Community Pride

We celebrate and commemorate our community heritage.

We embrace and celebrate the diversity of all those who make up our community.

We enhance the spirit of Shawnee through community celebrations and cultural and recreational programs.

Decisions for the Greater Good

We create long range plans which will build a sustainable community for future generations.

Our decisions are made and programs implemented based on the good of the whole community and not just focusing on certain groups or areas.

Sound Management

We operate at a highly efficient level, structuring our organization to minimize duplication and red tape, and utilizing staffs' talents and abilities to maximize performance.

We utilize our resources in the most efficient manner possible, proactively maintaining our equipment; developing comprehensive replacement schedules for large equipment; taking competitive bids for materials and commodities.

We benchmark City services and programs to insure we are operating in the most efficient manner possible and to identify areas for improved efficiencies.

Individual Competencies

These are the core competencies of our employees that allow us to fulfill the Mission and accomplish the Programs and Strategic Goals of the Organization in accordance with the Organizational Values.

City Services Knowledge/Customer Service:

- Understand the basic functions of City departments and how they interrelate.
- Has a general understanding of how individual job responsibilities support departmental and City services.
- Can respond to or refer requests for information about basic City services.
- Is conscious of how individual actions impact the City's public service role.
- Acts in the public interest by providing reliable information and high quality, consistent service.
- Takes advantage of opportunities to conserve resources, improve services, and build positive community relationships.

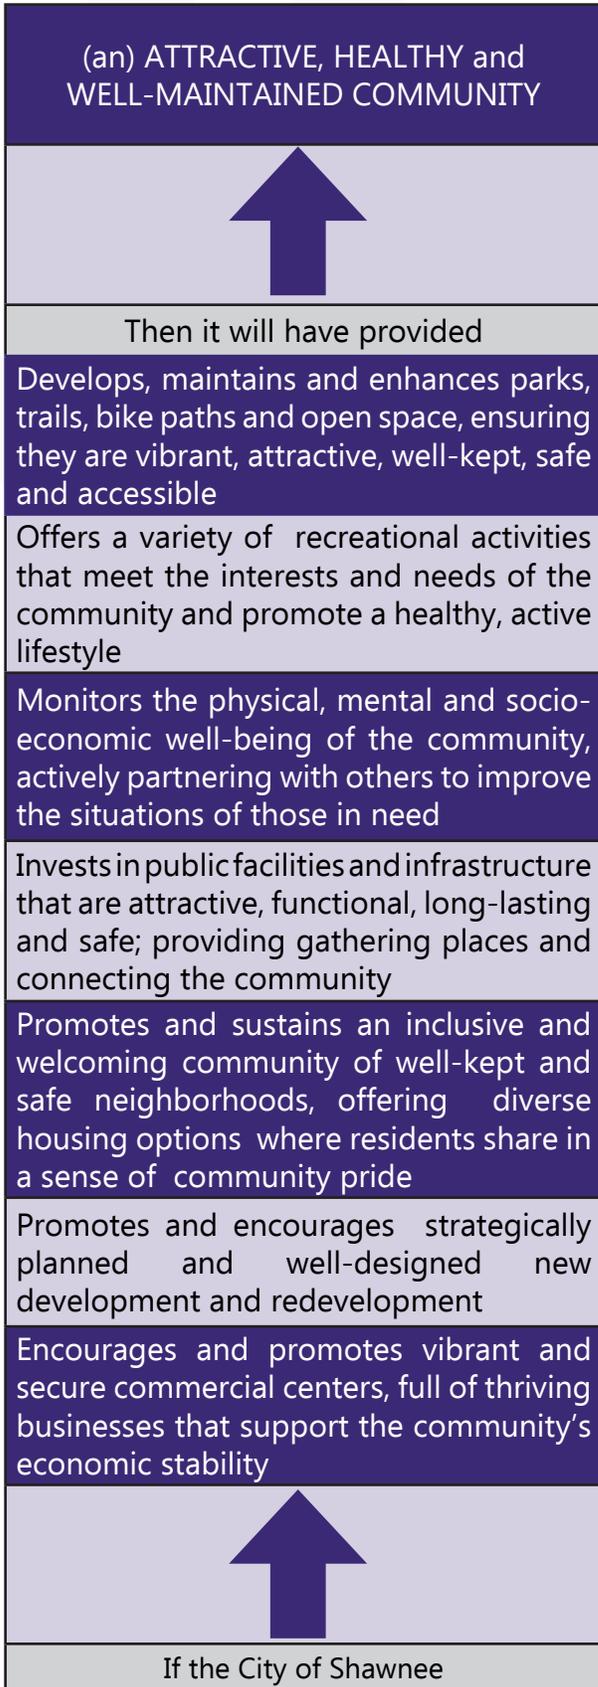

Collaboration/Interpersonal Skills:

- Works with others toward common goals.
- Demonstrates respect for others.
- Shares ideas.
- Listens to others' opinions and incorporates ideas into team decisions.
- Shares credit for achievements and accountability for errors.
- Understands others' perceptions.
- Relates well to different personal styles.
- Shows consideration for the feelings and well-being of others.
- Builds constructive relationships.

Personal Accountability - Exempt/Self Starter:

- Acts in ways that support honesty and upfront dealings with others in a fair and just manner.
- Accepts responsibility and is accountable for his or her actions.
- Keeps commitments, is reliable and consistent with his or her work and maximizes the use and efficiency of time and resources.
- Communicates openly and directly and does not misrepresent facts.
- Understands position requirements and commits the time required to meet job responsibility.
- Takes independent action within his/her scope of responsibility.
- Looks for opportunities for innovation and improvement; is receptive to new ideas and information.
- Looks for opportunities to learn from others or on-the-job and applies new skills and knowledge to daily work.
- Performs tasks with little supervision or direction.

Result: (An) Attractive, Healthy and Well-Maintained Community

Project	Leader(s)
Identify data points, create baselines, define roles of team members and develop two year strategic plan for the Neighborhood ASSIST program.	Doug Allmon Lauren Grashoff
Complete and implement a corridor beautification plan for the Shawnee Mission Parkway corridor, Switzer to Pflumm. (not currently in the budget)	Neil Holman

Result: Economic Growth and Vitality

ECONOMIC GROWTH and VITALITY

Then it will have provided
Attracts and retains a diverse mix of business by offering appropriate incentives, "business-friendly" processes, and an attractive environment
Promotes high quality, diverse job creation, and attracts a skilled workforce that meets the needs of employers
Encourages well-planned development, revitalization, and preservation of existing commercial areas
Provides well-maintained public infrastructure networks that support the growth of the community
Cultivates a thriving downtown and vibrant commercial centers with a variety of dining, shopping, and entertainment opportunities
Preserves financial well-being by diversifying the revenue base, engaging the community, and seeking innovative options to fund community growth
Creates and sustains a desirable environment to live, work, play, and visit

If the City of Shawnee

Project	Leader(s)
Encourage the development of new construction and/or tenant occupant to spark the Shawnee Crossings development.	Carol Gonzales Andrew Nave
